

Depression

The depression monster floats around endlessly, always covering his eyes to hide itself from the outside world. Because of this it always bumps into people or other monsters causing more distress to itself each time.

Its only relief is to wrap its fluid tail around a victim and share its depression with them. The victim is unaware of the monster but will register a heaviness and will develop a state of deep depression. Meanwhile the monster absorbs any positive emotion from its host until it has had its fill and moves onto another host.
